Offre Finding some of the techniques that you can use to increase your chances of getting hired. I will also talk about your personal growth that will enable you to flain sufficient confidence to land your dream job.

Virtual Session

Wilfried Carimboyo
Co-organizer
Ashe

3:30 PM - 4:00 PM

Android Architecture Navigation Component

Offre Navigation and managing fragment stack can be a pain, which is why there is the new Navigation component. I am going to show the community how to get started with it, create complex navigation graphs, use safe-args and much of deep linking and. At the end of the session, one should be able to pick up on the component or migrate their existing app to it.

Virtual Session

Facebook Bale
Instructor
Andela Kenya
Kenya

4:30 PM - 5:00 PM

Navigating the Flutter Ecosystem

Offre Flutter and cross-platform programing Flutter ecosystem is the current Flutter package landscape (including package discovery, tools and all) also cover some state-of-the-art methods which should be discussed when publishing a new Flutter package to get a wider adoption.

Virtual Session

Jackie Fraser
Developer
Andgateway

5:00 PM - 5:30 PM

Super Power your Android App with ML: Android 11

Offre In this session, I will go through the Android platform and how it has offered tools one could use to power their Android apps with Machine Learning and also discuss the new additions to Machine Learning in Android 11 specifically the Wakefield Ranking Plugin and ML Kit.

Virtual Session

Akash Gupt
Lead Developer
Ola Electric Mobility
Bangalore, India
Mumbai Local - Mobile Manager

5:30 PM - 6:00 PM

What's your Stack?

Offre Tired of overwhelmed with tools in the field of Creating things publish tools in the days, Java Enterprise Engineering, Serious Engineering with new tools and practicle tools. Learn how to deal with Tools and Technical problem and what they are. Time to decide. What's your stack.

Virtual Session

Gaston Liberio
Ashe - Lead Dev
Ashe

6:00 PM - 6:30 PM

May the Jetfuel and consolitea Force be with you in Parsing APIs

Offre Jetpack consolitea and Jetfuel are two libraries that can ease the pain of parsing APIs in Android. Jetfuel provides a simple and declarative way to define models and consolitea Force can be used to get rid of boilerplate code when dealing with Gson. Time to decide. What's your stack.

Virtual Session

Ferdinand Bada
Instructor Fedo
Head of Software Development

6:30 PM - 7:00 PM

Offline Web Apps don't Exist anymore!

Offre Progressive web apps are the future of mobile that no apps are that. Learn how, and able to provide a to-to experience. Addressing a unique experience to our users.

Virtual Session

Francesco Laurelli
Co-organizer
Group Leader
Trieste

7:00 PM - 7:30 PM

Fullpack: Combining Machine Learning & Big Data

Offre Using the power of big data libraries with support in Python to deal with the huge amount of data for devising business insights using ML techniques.

Virtual Session

Ayoh Ma
Software Lead
Co-organizer
Andgateway

7:30 PM - 8:00 PM

Shipping a PWA as an Android App Using Bitkitewrap

Offre Traditionally, when developers wanted to distribute their web-based apps through app stores like Google Play, there was only one option. Apache Cordova is the most popular solution for this, but it has a lot of drawbacks. Bitkitewrap is a new open-source project that provides a better way to package web-based apps for app stores. Well take a look at Bitkitewrap, discuss its pros and cons of using it, and deploy a sample app to Google Play. Bitkitewrap, Apache Cordova, PWA, Progressive Web Apps, Android Studio, Google Play, Bitkitewrap, Android, Android Studio, Google Play, Bitkitewrap, Android and Chrome OS, combining the power of both worlds.

Virtual Session

Blessing Krofegha
Software Engineer
Andgateway

8:00 PM - 8:30 PM

Integrating Google Assistant for Cl

Offre Tell me what a people who wrote a Google Google Assistant using GoogleTest for Jetfuel? Continuous Integration is a way to automate model to know the status of the codingbuilds, run jetfuel CI for testing, and automate the overall process.

Virtual Session

Kevin Bellier
Co-organizer
Ashe

8:30 PM - 9:00 PM

JAMstack: Going to Ditto GIS back to the roots

Offre We will talk about the architecture and what advantages it brings as compared to "Ser-ver- Side Rendered" applications. We will also talk about different types of tools that are available for developers to build and deploy JAMstack based mobile and web-based clients.

Virtual Session

Facundo Giuliani
Software Engineer, Full Stack
Co-organizer, Ashe Kenya
Ambassador, Software
Ambassador, Cellmate
Uruguay

9:00 PM - 9:30 PM

From Dev to DevOps

Offre Everything from web development to Linux DevOps Culture enables Continuous Delivery and Deployments of Linux and nowadays we have many tools to achieve that goal.
